

# Zephyr Lock

BETTER SECURITY THROUGH INNOVATION

## Model 2100 & 2200 Traditional Series Electronic RFID Locker Lock System

### Electronic RFID Lock Extension Kit

- Allows for installation of locks on wood and laminate doors that are either 1/2" or 3/4" thick
- For Electronic RFID Lock models: 2154, 2155, 2254, 2255
- Kit consists of the following: 2 screw extensions, 1 pin extension

### How to install:

1. Screw both Screw Extenders onto the threaded stems of the Front Face Keypad
2. Connect Pin Extension to the Socket on Lock Body
3. Connect the Front Face Keypad to the Pin Extension attached to the Socket on Lock Body
4. Listen for the melody to indicate a proper connection
5. Test Lock
